ADOPTED

BOARD OF SUPERVISORS

EXECUTIVE OFFICER

IT IS RECOMMENDED THAT YOUR BOARD:

1. Authorize the Interim Director of Health Services, or his designee, to execute Amendment No. 1 to Master Agreements H-703703 with NexxRad Teleradiology Partners (NexxRad), H-703690 with Fortino Castaneda, M.D. Inc. (Fortino), H-703691 with U.S. Radiology On-Call (USROC), H-703692 with Staff Care, Inc. (Staff Care) and H-704012 with Echo Tech Imaging, Inc. (a) to extend the contract term of each agreement to include the period January 1, 2010 through June 30, 2010, (b) to increase the compensation rates for on-site screening mammography studies from \$15 per study to \$35 per study, effective for services performed January 1, 2010 through June 30, 2010, (c) make other minor modifications and (d) increase the aggregate Master Agreement by \$1,703,244, for the six month extension period.
2. Delegate authority to the Interim Director, or his designee, to sign Amendments to the Master Agreements that authorize increases to the contract maximum obligation of no more than 15 percent for the initial term of the agreement and of no more than 15 percent for the period January 1, 2010 through June 30, 2010. The Interim Director shall obtain the approval of the Chief Executive Office and County Counsel prior to executing such Amendments.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

Approval of the first recommendation will allow the Interim Director of Health Services (DHS), or his designee to execute an Amendment to each of the five Master Agreements, substantially similar to Exhibit I, to extend the term for six months through June 30, 2010, and provides funding for such extension period. The Master Agreement provides as-needed contract radiology and teleradiology services to Harbor-UCLA Medical Center (H-UCLA), High Desert Health System (HDHS), Martin Luther King, Jr. Multi-Service Ambulatory Care Center (MLK-MACC), Rancho Los Amigos National Rehabilitation Center (RLANRC), Olive View-UCLA Medical Center (OV-UCLA) and LAC+USC Medical Center (LAC+USC). The current Master Agreements expire December 31, 2009.

On September 3, 2008, DHS released an open competitive Request for Statement of Qualifications (RFSQ) for radiology and teleradiology services. The solicitation process resulted in a total of five Contractors being approved for Agreements for the provision of teleradiology and radiology services. The term of the Master Agreement with these providers was for up to one year to allow DHS to assess the Department's staffing needs for radiology and teleradiology services and conduct a solicitation under established Proposition A guidelines. The solicitation has been delayed due to the need to complete a comprehensive staffing assessment for imaging services for each facility. The extension of the Master Agreement will allow the additional time necessary to develop, release and complete the solicitation process.

Approval of the second recommendation will enable the Interim Director to increase the contract maximum obligation by up to 15 percent during the remainder of the initial term and by up to 15 percent during the six month extension for possible increases in service needs due to increased patient visits. Currently, the Department's projected expenditures for the remainder of the initial contract term ending December 31, 2009 is 28% below the current contract maximum obligation. The Current Master Agreement provides for this increase to the contract maximum obligation but the Delegated Authority was inadvertently omitted from the initial Board Letter Approved on December 2, 2008. Although the Department does not need to increase the current contract maximum obligation, this Delegated Authority is recommended to provide the Department maximum flexibility to meet unanticipated increases in patient visits.

In addition, the amendment also increases the payment rate for screening mammography, extends the time to provide reports on "stat" interpretations and includes new, Board required language on compliance with the County's Defaulted Property Tax Reduction Program. At LAC+USC' request it deletes that facility as a service site. The increase in the payment rates for on-site mammography studies is recommended to bring the County compensation rates more in line with the current market compensation rates for these services.

Implementation of Strategic Plan Goals

he recommended action supports Goal 1, Service Excellence and Goal 4, Health and Mental Health of the County's Strategic Plan.

FISCAL IMPACT/FINANCING

Under the Master Agreements, the contractors are compensated on a fee per study basis and the total maximum obligation for all contractors in the aggregate for the period January 1, 2009 through December 31, 2009 is \$2,731,635. The increase in the aggregate maximum obligation for the Master Agreements for the period, January 1, 2010 through June 30, 2010 is \$1,703,244. The total consists of the estimated costs of \$311,000 for HDHS (which includes \$10,000 for mammography study rate increases), \$338,015 for MLK-MACC (which includes \$20,000 for mammography study rate increase); \$195,167 for OV-UCLA; \$834,062 for H-UCLA and \$25,000 for Rancho, increasing the total contract maximum obligation to \$4,434,879 for the entire 18 months term of the agreement. OV-UCLA and H-UCLA do not anticipate requesting mammography services through this Agreements.

During the period January 1, 2010 through June 30, 2010, the maximum amount of the 15 percent increase, if utilized, will not exceed \$255,486. Funding for both the maximum amount and any authorized increase is included in the Fiscal Year (FY) 2009-10 Final Budget.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The recruitment and retention of qualified physician radiologists continues to be an ongoing problem for most of the facilities in DHS. The Master Agreement approved by your Board on December 2, 2008 allows for the provision of as-needed radiology and teleradiology services which County employees, in-house staffing personnel and County re-employment list personnel are not available to perform particularly during peak workload periods and emergencies.

The Master Agreement was initiated with three contractors with a contract term effective January 1, 2009 through December 31, 2009. Two additional contractors were subsequently added under the Department's delegated authority bringing the total number of contractors to five. The existence of a contract did not guarantee any of the contractors a particular level of work.

During the initial term of this Master Agreement, LAC+USC did not need to utilize these contract services extensively and therefore has requested that their facility not be included in the six month extension.

An increase in the payment rates for screening mammography studies is requested because HDHS and MLK-MACC experienced a critical shortage of available physicians to perform on-site mammography studies. The contractors were able to provide the additional physicians necessary; however, concerns were expressed that the compensation rates per study were not comparable to the standard industry rates paid for these types of procedures. The rates for mammography screening in the Centers for Medicare and Medicaid Services published Physician Fee Schedules is \$35 and is considered a market rate for such services. Therefore, the Department is recommending that the rates in the Master Agreements should be increased from \$15 per screening study to \$35 per screening study to bring the rates paid by DHS in line with the current market compensation rates for mammography studies.

Under the termination provisions, the Master Agreement may be terminated immediately for breach or for convenience with a 30-day advance written notice by either party.

County Counsel has approved Exhibit I, as to use and form. The respective program office administration sections will continue to monitor these contractors performance to assure compliance with the terms and conditions of the Agreements.

CONTRACTING PROCESS

Not Applicable.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

Board approval of the recommendation will ensure the uninterrupted provision of critical physician radiology services to the patients served by DHS facilities.
